

Reference Letter

To Whom It May Concern:

It's my pleasure to provide this letter of recommendation for Alexandru Hoțescu who seeks employment with you as a Graphic Designer. As Alexandru's direct manager at T-Me Studios, I've worked closely with him over the past 2 years and I can attest to his great artistic skill, as well as his excellent communication abilities. On a personal level, he's charismatic and well-spoken, both qualities that have served him well within our team.

Due to our company's change in direction, away from mobile apps that rely heavily on art, we're letting go of most of our graphic designers - we're sad to see Alexandru go, but our loss is truly your gain. It's not just his skill as an artist, but also his character, that recommends him. Allow me to point out some examples of Alexandru's strengths.

First, Alexandru has brought great value to T-Me Studios by creating art for a variety of projects during his time with us. Whether it was personalization apps like wallpapers, keyboard themes, launchers and the like, or sticker packs, his art has always been consistently top-notch and, as a result of that, the apps he worked on are among the most downloaded in our company's portfolio.

Secondly, Alexandru has been keen to join any experimental endeavor we've embarked on over the years - the most daring of which required him to get acquainted with the VR environment. He was eager to learn and did so at a rapid pace, ultimately modeling 3D worlds that would be experienced in this new and exciting medium of virtual reality.

Furthermore, Alexandru never backs down from a challenge and when the opportunity arose for him to teach junior designers, he embraced this new role with gusto. As such, he held Z-Brush workshops for his peers on a weekly basis and proved himself both able and eager to share his knowledge. He is also a quick study who has taught himself new skills and has grown in time to become an accomplished artist with an expert-level knowledge of design software (e.g. 3D MAX). Moreover, he has honed his skill at 2D animation and illustration. He is well organized with the resources that he has to deliver, making it easy for the team to continue working on the projects that he started without any difficulties.

To conclude, there is no doubt in my mind that Alexandru will surpass any employer's expectations from a new hire. Aside from his proficiency as an artist, he would be a great addition to any team thanks to his drive, self-confidence and intelligence, that go hand in hand with his interpersonal skills. As one of the senior members of the design team, he's often helped rally the team around a task, taking on a de facto leadership role which was instrumental to the successful completion of various projects.
